The event space is equipped with state-of-the-art ceiling and lighting fixtures that showcase seamless interplay between light and sound. The updated theater-like set-up features an artfully-lit ceiling and wall panels that adapt to the mood and nature of the event.

Magnificent and breathtaking, the Fiesta Pavilion can host anywhere from 150 of your closest friends to 1300 conference participants. It remains to be the ballroom of choice when immense space and quiet elegance are the primary considerations.

MAYNILA BALLROOM

A vision of Philippine National Artist for Architecture Leandro Locsin, the Maynila Ballroom lends a native sophistication to any event with its five-meter high hand-carved narra arches, hand-painted ceiling and massive capiz shell chandelier framed gracefully by an Arabesque canopy. Magnificent multicolored Tiffany bay windows, studded lights and indoor water fountains lend an added magic to nightly ballroom dancing for the finest in entertainment. Dining in our Maynila Ballroom makes for a truly unforgettable experience with its regal design concept that is more art than architecture.
